We offer an internship for a student with a mechanical engineering background. Among the main task will be:

- 1) Application of CAD/FEM (Creo Parametric/ Autodesk Simulation Mechanical) in machine design.
- 2) Design, analyses and simulation of a device for nanomaterials production, experimental verification in laboratories.

### ADDITIONAL INFORMATION

Please follow the instructions for preparing the nomination documents and the visa process in the attached document. This document is only for you and your student, please don't include it in your student's nomination.

IAESTE provides accommodation in the student dormitory, where interns are housed in shared double rooms with same-sex roommates. If an intern prefers a single room, they are responsible for arranging alternative accommodation independently.

**Deadline for Nomination - 2026-04-26**

Date - 17-Apr-2026

On Behalf of Receiving Country - IAESTE Czech Republic
